ABOUT US

Al Odan Industrial Co. Ltd is a 100% Saudi-owned limited liability partnership company, with its head office located in Riyadh – Second Industrial Area. With a strong industrial legacy spanning more than 25 years, the company has established itself as a trusted name in plastic manufacturing, fabrication, and packaging solutions in the Kingdom of Saudi Arabia and the GCC region.

Our manufacturing operations include fully equipped factories in Riyadh Industrial Area Phase 2 and a newly constructed state-of-the-art facility in the Sudair Industrial Area. These facilities are supported by advanced production infrastructure comprising injection molding, PET blow molding, extrusion blow molding, sheet extrusion, thermoforming, and vacuum forming technologies, enabling us to deliver consistent quality and high production efficiency.

Al Odan Industrial Co. Ltd specializes in the production of plastic household items, PET bottles, and plastic packaging products under our own brand ODAN, in addition to offering private-label and third-party manufacturing services tailored to customer specifications. Our in-house tool room further strengthens our capability to maintain and service molds efficiently, ensuring uninterrupted production and precision output.

Our business is primarily focused on wholesale markets and end users in the food packaging industry. With dedicated sales offices in Riyadh, Jeddah, and Medina, we effectively serve the Central and Eastern regions of Saudi Arabia, as well as neighboring GCC countries. Backed by a skilled workforce and a customer-centric approach, we continue to expand our presence while delivering reliable, innovative, and high-quality plastic solutions.
